Will destroy Garden Insects, Cockroaches, Bed-Bugs, Fleas, Ants, Moths, and all pests of the vermin kind. The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was made use of to guard their night camps from the intruders. Quantities of the plant was brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the governments of England France, Germany and Russia, from the World's Fair, and numerous medical and horticultural colleges and societies.

It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure Arrangements are now made through Messrs. THE POPULARITY OF THE MEXICAN MUSTANG LINIMENT, is coextensive with the civilization of the lobe. Other articles claim to alleviate pain and distressthis cures. Family Physicians, Government Hospitals, Planters, Farmers, Livery-men, &c., have practically demonstrated this fact, throughout the world. No article ever before received such undivided praise and support from Medical and Scientific men.

RHEUMATISM of years' standing, has been totally cured. Piles, Ulcers, Tumors, Running Sores, Scrofula, Stiff Joints, Felons, Swellings, Burns, Bites, Boils, Chaps, Neuralgia, Salt Rheum, and all aches and pains upon man, and kindred complaints upon HORSES, CATTLE, &C. such as Ring-bone, Gall, Scratches, Spavin. Such language as this is but the constant and natural echo wherever this article is used. This Liniment is indispensable to planters and owners of horses and mules. Her Majesty has nothing more at heart than to maintain the friendship and good under-

The vast importance of the relations between the two countries would cause me to tremble in entering upon the duties of the highly honorable post to which the confidence of my sovereign has called me. On our part these sentiments are cordially reciprocated towards Her Majesty and the British people. You do not, you cannot, appreciate too highly the importance to the people both of Great Britain and the United States of maintaining the most free and friendly commercial and political intercourse with each other.
